

Brian Methé, M.S.

ABMP Board Member
(representing AAHP)

Brian holds a Master's Degree in Nuclear Engineering from Rensselaer Polytechnic Institute, and is certified by both the American Board Medical Physics (Diagnostic) and the American Board of Health Physics (Comprehensive). He has worked in professional positions in industry, academia, and healthcare for over thirty years. He is licensed by the state of New York for the practices of medical health physics, diagnostic radiological physics, and nuclear medicine, and is a member of the American Association of Physics in Medicine and the Health Physics Society. He has held positions on the Board of Directors of the American Academy of Health Physics and the NYS Medical Physic Licensing Board. Brian has published a number of research papers, given several presentations on the topics of radiation safety and medical physics, and has developed and led a course on nuclear medicine physics at Hudson Valley Community College as an adjunct faculty member. When not having fun as a medical physicist in private practice, Brian enjoys watching the game of baseball and discussing the finer points of oenology and zymology.
