

Kevin S. Buckley, M.S.

ABMP Chair
(representing AAHP)

I graduated with undergraduate degree in Health Physics in 1985. My first job was with as a civilian working for the Navy on Nuclear submarines I started as a technologist, then instructor and finally engineer. I received my Master's degree in 1990 from UMass Lowell in Radiologic Science and Protection. I started work in the medical field in 1992. I have worked as an RSO, X-Ray Safety Officer, diagnostic physicist and have assisted with the evaluation, purchase and installation of imaging equipment. This last year I have been working for Krueger Gilbert Health Physics consulting doing diagnostic imaging and RSO duties. My hobbies include commercial tuna fishing, boating, scuba diving and skiing.
